No. 550.—

Rules for the levy of fees for work done by the Pumping and Boring Department in connection with the installation of oil-engines and pumps.

1. Landowners and ryots desirous of seeking the advice of the Officer in charge of the Pumping and Boring Department in regard to the installation of oil-engines and pumps must pay a fee of *Rs.* 10 with their applications for the same.

2. For the supervision and erection of installations of machinery by the Pumping and Boring Department, a fee of 2½ per cent. upon the cost of the machinery (in Madras) will be levied in advance. This fee includes the cost of all supervision till the plant is running in a satisfactory manner. In the case of a second-hand machinery the cost, for the purpose of calculating the fee to be paid in advance, will be determined by the Officer in charge of the Pumping and Boring Operations.

3. Any landholder or ryot who is desirous of having his plant inspected or adjusted from time to time can do so by payment of a fee of Rs. 15 *per annum*. This fee should be paid in advance at the beginning of each official year. It will not cover any actual outlay on any repair work carried out by the officers of the department which must be paid in addition. It will be within the discretion of the Officer in charge of the Pumping and Boring Operations to decline to renew the arrangement after the close of any year for which a fee has been paid, if the applicant has been found to make frequent requisitions to the department for assistance, and if these requisitions have been found to be unnecessary or to be on account of breakdowns caused by the applicant's continuing, in spite of warning, to employ negligent, ignorant or incapable drivers.

4. Any person who wishes to obtain the advice of the Officer in charge of the Pumping and Boring Operations in regard to the preparation of plans and estimates for industrial undertakings in this Presidency can do so by depositing in advance such fee as the officer may fix not exceeding 2½ per cent. of the estimated cost of the work.

5. All fees levied under these rules shall be credited to Government.

6. In cases where the levy of fees is likely to operate as a burden on the slender resources of applicants, the Officer in charge of the Pumping and Boring Operations may remit the whole or part of the fees at his discretion.

No. 551.—

Rules for the levy of fees for boring work done by the Pumping and Boring Department.

When a boring party is established in a taluk, the fact will be notified in the District Gazette. Applications for boring should be made to the officer in charge of the boring party and should be accompanied by a minimum advance of Rs. 20 to meet the cost of the work. Any surplus which may remain after the work is completed will be returned to the applicant.

2. The department will make arrangements to bring the tools to the site of the proposed boring and to remove them after the work is completed, charging the actual cost of so doing against the advance received.

3. The boring tools will be in charge of a qualified mistry and for his services a fee of *Rs.* 1-8-0 a day will be charged. The applicant for whose benefit the boring is made may supply all the necessary labour, but if he is unable to do so at the time the boring is to be made, the department will undertake to supply labour so long as payment for the same is made in advance. Failure to supply coolies or to make advances for the payment of the same will entail the immediate removal of the tools. When a power-driven drill is employed to make the borings, the applicant for the use of the same will be charged Rs. 3 per day in addition to transit charges and actual running expenses, the minimum charge being Rs. 100.

4. All fees levied under these rules shall be credited to Government.

5. The results of a boring will be communicated to the applicant and he will be advised what steps to take to obtain the full benefit of the water-supply available. In cases where the sub-artesian water is met with, arrangements will be made to put down a suitable permanent tube, the whole cost of which will be met by the applicant.

6. Outside the areas notified under rule 1, boring work can only be undertaken when the applicants are prepared to pay the full cost of the same and even then only when tools are available.

7. The Pumping and Boring department will undertake within the means at its disposal to supply pumping power for the purpose of testing existing wells to ascertain the water-supply available. The owners of wells will be required to pay in advance the estimated cost of transporting the engine and pump to site and the charges for fuel and labour incurred in working the same in addition to a charge of Rs. 2 per day for the use of the engine.

NOTIFICATIONS.

Fort St. George, December 4, 1911.

No. 260-*P.*—In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, the Governor in Council is pleased to make the following amendments in the Plague Regulations in force outside the Presidency town :—

(i) *Substitute* the following for rules 123 and 124 :—

"123. When a case of plague, genuine or suspected, is first discovered in any place not declared infected, the Collector or, in his absence, any gazetted officer at the head-quarters station of the district shall immediately telegraph the fact to the Secretary to Government, Local and Municipal department, and to the Sanitary Commissioner. This telegram shall state whether the case was indigenous or imported, if the latter wherein it was imported, how the case was discovered, and any other further particulars, with dates, which appear necessary. In the case of ports whence vessels sail for Europe, it should also be stated in the telegram whether any plague or unusual mortality among rats was observed. Names of hamlets should not be telegraphed but only the names of villages to which such hamlets belong.
